VARNISH STAINS

Quick Drying

For floors, furniture and wood-work. ART GLO VARNISH STAIN is a combination of varnish and stain. It is an ideal enduring finish for beautifying many places in the home.

Use this Varnish Stain to renew the appearance of your floors—it glistens with a beautiful finish under the hardest wear. Can be washed repeatedly.

Easily Applied

Anyone, whether experienced or not in painting, can use ART GLO VARNISH STAINS with success. In one stroke of the brush you can both stain, color and varnish . . . leaving a most durable, waterproof finish. It will retain its beautiful high gloss under the most severe conditions. Apply like varnish.

Washable

ART GLO VARNISH STAIN can be washed with strong soaps, ammonia or alkali solutions. Its enduring finish will not print or stick to the clothing. It is not affected by body heat.

Beautify Your Home with "ART GLO"

YOUR home should be comfortable, and at the same time beautiful, and this can be accomplished very easily with the right atmosphere of color.

You surely would like to change your shabby furniture and dingy rooms into attractive and beautiful colors. This can be done very easily with "ART GLO," starting with your reception room, which should be given a warm welcome color, the living room, a color that suggests relaxation. In the living room can be used a bright, lively background, and the furniture can be painted with all the latest popular bright colors which are being used very much.

Bedrooms, restful effects are essential, light tints will give a cheerful atmosphere and induce relaxation. The kitchen and breakfast room, where all light shades of color are preferred, no longer will the drab dark shades be used here.

Your bathroom offers an opportunity to bring out either white or a colorful effect. Gay colors and novel designs are popular, in fact, the appearance of your entire house can be changed by you yourself, at very little expense.

DIRECTIONS

OPEN the can and stir thoroughly before applying. The surface upon which you are going to apply it must be perfectly clean, dry and clear from dirt, dust or grease. If applied on an old finish, sandpaper the old finish to a smooth, even surface. The second coating can be applied within 1 or 2 hours.

"ART GLO" has such great covering qualities that one coat is all that is necessary, except in cases where a dark color is being covered by a light color; it would then be necessary to use two coats.

Use a clean or new brush, keep it well saturated and work fairly fast, as this is necessary in a quick-drying coating. If "ART GLO" should become too heavy to brush well, through evaporation of the liquid, just a small amount of turpentine is recommended to thin it.

CAUTION

Keep can closed tight when not in use. "ARTGLO" is especially recommended for:

Breakfast Room Furniture	Metal Beds
Tables	Baby Carriages
Chairs	Flower Boxes
Porch and Sun Room	Kitchen Cabinets
Furniture	High Chairs
Radiators	Wood or Metal Beds
Toys	Picture Frames

and in fact, any article of furniture, and remember, it brushes easily, covers very fine, and dries quickly, with a very fine lustre.
